

Free Template from ClockPrints.com

Template Ideas

- Use dowels or plugs in place of numbers.
- Print numbers from a word application using an interesting font to use as a scroll saw pattern.
- Use a mortiser and square pegs in place of numbers or as corner accents.
- Use the template to help position numbers purchased at a craft store.

Printing Tips

- Higher quality settings (photo settings) will make the print easier to use.
- If “fit to page” print option is checked, the template rings may not be sized correctly.
- For those of you with access to a large format printer - all of Clock Prints pdfs are vector art and can be enlarged without loss of detail.
